O/A EXODUS: PROXIMA CENTAURI
After a devastating nuclear war, six human factions are seeking shelter in the Centauri system. On the verge of extinction, the humans are saved by a superior civilization, allegedly the Centaurians, and each faction is given a fresh start on a new planet. Thus, the exodus of humanity seems to have ended on the planets orbiting the star called Proxima Centauri. When the Centaurians announce their departure, the struggle for power commences once again! Inspired by Stanislaw Lem's "The Magellanic Cloud", *Exodus: Proxima Centauri* is the first in a sci-fi trilogy of games.

BRITISH BATTLESHIPS 1914-18 (1)
 The launch of HMS Dreadnought in 1906 changed the face of naval warfare. It was only in 1911, with the launch of HMS Neptune, that the layout of this powerful armament was altered as a result of practical experience. This *New Vanguard* title, the first of two covering these famous warships, uncovers the full story of the British battleships of World War I. Scheduled to ship in May 2013.

F-86 SABRE VS MiG-15
 As the routed North Korean People's Army (NKPA) withdrew into the mountainous reaches of their country and the People's Republic of China (PRC) prepared for a momentous counter-offensive, Josef Stalin agreed to provide the requisite air cover, introducing the superior swept-wing MiG-15. This in turn prompted the USAF to deploy its very best - the F-86A Sabre - to counter this threat. Thus began a two-and-a-half-year struggle in the skies known as MiG Alley. Scheduled to ship in May 2013.

THE JEWISH REVOLT AD 66-73
 In AD 66, a local disturbance in Caesarea exploded into a pan-Jewish revolt against their Roman overlords. Gaining momentum, the rebels successfully occupied Jerusalem, until emperor Nero dispatched the Roman general Vespasian to crush the revolt in Galilee. However, his son, Titus, was left to carry on the war, culminating in the dramatic siege of Jerusalem in AD 70. The apotheosis of the conflict was the final stand of the last holdouts in the Temple precinct itself, and the utter annihilation of this, the physical manifestation of Judaism itself. Scheduled to ship in May 2013.

BRITISH FRIGATE VS FRENCH FRIGATE
 In the "Age of Fighting Sail" (1650-1820), ambitious officers of the navies of many nations sought command of a frigate. Speedy, nimble, and formidably armed, frigates often operated independently, unlike the larger ships of the line. Featuring specially commissioned artwork and offering expert analysis, this study provides a vivid account of the bloody combats fought by the most romantic warship of the Revolutionary and Napoleonic era - the frigate. Scheduled to ship in May 2013.

ROLLING THUNDER IN A GENTLE LAND: THE VIETNAM WAR REVISITED
 The Vietnam War was a conflict of myriad complexities. It was a civil war, an insurgency, and a conventional war. The greatest American failure in the conflict was a failure to understand context - a context that begged an inexorable singular military logic and solution. A military solution that was so overly simple that it proved to be no solution at all. *Rolling Thunder in a Gentle Land* cannot pretend to answer all of the nagging questions that still surround the conflict, but it can begin to pose new questions that have too often been left unasked or ignored. Scheduled to ship in May 2013.
