O/A CARNIVAL ZOMBIE

The ancient manuscripts speak of a Leviathan - a massive creature lying on the fetid bottom of the Lagoon on whose back rests the foundation of the city. All manuscripts agree about his eternal sleep and they tell that the beast will awaken one day, shaking the city from its muddy roots, smashing the petrified piles on which it stands, and crashing it into the seething sea. But, there were no signs. What the ancients didn't know was that, for centuries, the city lived and prospered on the back of a corpse! Now that corpse has awakened, and with it the dead arise seeking the living to sate its insatiable appetite for death and destruction! *Carnival Zombie* is a cooperative board game of carnage, horror, and survival in the streets of Venice at the height of Carnival.

Cyberpunk tales are written in dark, gritty, film-noir styles. Their protagonists live and die at the bottom echelon of an electronic society gone awry. Mythos horrors lurk at the edge of society, mythos-altered technology infects human beings, dark gods lurk in cyberspace, and huge corporations rule society while bowing to entities inimical to humankind - this is the Cyberpunk-Cthulhu world... this is *Eldritch Chrome*, an anthology of unquiet tales of a Mythos-Haunted Future.

**O/A FOLIO SERIES: IWO - BLOODBATH IN THE BONINS**

A critical point on the flight path of US bombers from their Saipan bases to their Japanese targets, the island of Iwo Jima would serve as a refuge for malfunctioning or damaged bombers, coming or going. Their goal was to inflict maximum casualties on the Americans to force them to reconsider the seemingly inevitable invasion of Japan. The resulting battle was brutal, even by the standards of the Pacific War. *Iwo* is a solitaire game using a modification of the *Fire & Movement* game system.

ALBATROS D.III-D.III (OAW)

In 1916, Imperial German aerial domination, once held by rotary-engine Fokker and Pfalz E-type wing-warping monoplanes, had been lost to the more nimble French Nieuport and British DH 2s. Born-from-experience calls from German fighter pilots requested that new single-engine machines should be equipped with higher horsepower engines and armed with two, rather than the then-standard single machine guns. The Robert Thelen-Albatros design bureau set to work on what became the Albatros D.I and D.II. Scheduled to ship in March 2014.

O/A THE 47 RONIN: A GRAPHIC NOVEL

In the eighteenth century, forty-seven samurai avenged the death of their master in a plot that would take over two years to complete. After succeeding in their mission, the masterless samurai - known as ronin - all committed ritual suicide. The story, which is a national legend, remains the most potent example of Japan's deeply rooted cultural imperative of honor, persistence, loyalty, and sacrifice. In *The 47 Ronin*, Sean Michael Wilson has created a historically factual portrait, enhanced by evocative and often lyrical drawings by Akiko Shimojima.

CAMP MYTH: THE RPG

How was my summer vacation? It was okay, I guess. Well, except for the parts where I was electrocuted, crushed, petrified, burned, stomped, poisoned, frozen, whipped, paralyzed, teleported, clawed, shot at, eaten, scarred, cursed, mauled, squashed, and thrown off a flying horse - at least once a day! And that was just earning the easy merit badges! Welcome to *Camp Myth*, the only summer camp built exclusively for young, mythological creatures, based on the awesome Young Adult Series by Chris Lewis Carter. Forget canoe rides and knot-tying lessons - these kids are more likely to fish for a Kraken, or learn the proper way to train a Chimera! Scheduled to ship in November 2013.

AMAZING ADVENTURES: TEMPLE OF THE RED GOD

Tens of thousands of years before our time, in the mythic Thurian Age, the cult of the Red God, the Blood Imperator, spread across the world like a plague, its legions more powerful than the Aztecs and more cultured than the Mayans. Now, so many eons later, a temple has been unearthed deep in the jungle - a temple built by a lost civilization and dedicated to this long-forgotten god. Is it possible that the Red God itself still sits at the heart of the temple, now decrepit, crumbling, and suffering from thousands of years of neglect? What secrets of ancient knowledge and treasures still reside within, undiscovered and untouched by the millennia that have quietly passed it by? There's only one way to find out, and that's what you do best! Scheduled to ship in January 2014.
