

MAYFAIR GAMES' LIMITED EDITION PROMO EXPANSION SET #13: RULES

VILLAINY TURF WAR

After defeating the other villains, your team takes control of a key location in the city. This location gives your team some additional rewards.

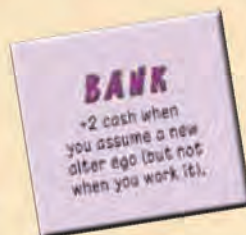

DURING SETUP

Shuffle the Turf War tiles and set them, face down, beside the Free-For-All deck. Then, decide amongst the players whether you want to have the effects of the Turf War tiles to be permanent or one-time-use.

AFTER A FREE-FOR-ALL

If you are the winning villain after a Free-For-All, draw 1 Turf War tile and place it beside your villain's portion of the control panel.

You can use the power of this building as described on the tile.

Free Specialty Tokens!

As an added bonus, we've included several new Specialty tokens!

LORDS OF VEGAS

Skybridge, Building Boom, and Card Sharp
by Morgan Dontanville

CARD SHARP

*If you want to ensure something closer to an even distribution of casino cards, we recommend this variant. You can use it with either the base game, and the **Lords of Vegas: UP! Expansion**. As well as the **Skybridge** and the **Building Boom** mini expansions.*

Sort the cards by casino color and shuffle them individually leaving out the strip and End of Game card. Turn the decks face down. Deal three of each color into a facedown stack and set it aside, this is the seed deck.

Shuffle the remaining cards with the strip cards. Split the deck into three stacks and place the End of Game card on top of the larger of the three stacks. Shuffle the remaining cards in with the seed deck.

SKYBRIDGE

Before dealing out the 2 starting cards to each player, roll the dice and place a Skybridge on the street between two of the back lots based on the die results (see chart below). You can repeat this process up to 4 times if you wish. Re-roll any duplicated results.

Skybridge Placement Roll Results:

- | | | |
|-----------|------------|---|
| 1: A4-C1, | 2: A5-C2, | 3: B5-D2, |
| 4: B6-D3, | 5: C10-E1, | 6: D9-F3 for 3+ players or C11-E2 in a 2 player game. |

Two lots connected by a Skybridge are treated as if they are adjacent during the game.

BUILDING BOOM

Place 2 Skybridges next to the board (You may play with up to 4 Skybridges). The following new action is added to the game.

ACTION - SKYBRIDGE

When you take the Skybridge action, you construct a bridge across a side street between two like-colored casinos where you are the boss.

- ☑ Choose two lots that are not on the strip where you are the boss, that are the same color, and that are adjacent to each other across a side street.
- ☑ Pay \$5 for each lot in both casinos
- ☑ Take one of the available Skybridges (if all are in use you may not take this action) and place it on the side street.
