Q SHIP VS U-BOAT
At the start of World War I a new and potent threat to Britain’s naval supremacy took shape in the form of the Kaiser’s Imperial German submarines. A submarine’s crew could not board and capture a merchant ship, thus U-boat captains were ordered to surface, rendering the U-boat highly vulnerable to attack. This enabled the Royal Navy to counter the submarine threat with vessels whose outward appearance was that of a merchantman, but which kept hidden an arsenal of weapons that would spring to life if a U-boat surfaced – the Q-ships. Scheduled to ship in February 2014.
